

Steampunk Computer Collection

Is a collection of high detail lowpoly models for the area of steampunk . Most of the models focus on computer parts and that's why this name is chosen for this collection but despite of computer parts you can find " Steampunk Camera " , "Steampunk Radio", "Steampunk fireplace " and a steampunk interior as the demo scene .

As shown in preview video in site some objects have both animated and static version in the collection also all the objects are created in such way to be easily animated .

Features :

- High quality low poly objects
- 4K and 2K PBR textures
- Easy animation capability for parts
- Both animated and static version of some models (as shown in the video)

Content :

- The steampunk Frankenstein computer (animated version – static version)
- Steampunk Monitor (both animated version and static version)
- Steampunk Mouse
- Steampunk Keyboard (version01)
- Steampunk Keyboard version02 (both animated version and static version)
- Steampunk Speaker
- Steampunk Power stabilizer
- Steampunk power Saver
